## TRÍPODE publishing house ([www.tripode.cat](http://www.tripode.cat))

Pilar Blasco Prim is an autonomous publisher since June 2018, under the commercial brand name EDITORIAL TRÍPODE. Its objective is to promote high literature and in a special way new voices of Catalan authors.

The planned volume of publications is 8/12 books per year, in order to be able to carry out a good selection, care and promotion of each author.

There is a predilection with literary stories (short stories) and brief novels or *nouvelles*.

A collection called "Library of modernism" has also been opened, which has published the *Complete original poetry* by Jeroni Zanné (one of our best poets, who went into exile in Argentina in 1913 until he died in 1934. Many unpublished works he wrote in Buenos Aires have been recovered). Another collection started recently in June 2019 with *Haitian personal diaries* is "Private Lives" that will influence the literary of self, intimist, dietarianism or cahierism.
